Dear Sol,

The ABA disgraced itself by acting as an adjunct to the Commission when it was supposed to be representing Oswald's interest (one now Justice Stevens) and now this disgusting charade.

If you hear of a transcript I'd like it just for archival purposes.

The Jenner of th Chicago firm of Jenner and Block was one of the Commission's counsels.

How can they educate when they know nothing bout it?

I don't suppose that getting rid of DeGersdorf and Wood helped Barr's firm much.

If you can give him a call and ask what part he wrote that would be interesting because he is not listed as on the staff as listed in the Report.

He could have been a clerk who'd been asked to write something by one of the counsels.

Thanks and our best to you all,
